

## Histo-pathology Lab Equipment's:

### Preparation cabinet with trolleys:

Preparation cabinet is designed for storing tissue test glass containers.

Stabile stainless steel construction 1.4301 (AISI 304), this material guarantees durability.

- 2 pc. Sliding doors made of Security glass
- Air suction approx. 250 m<sup>3</sup>/h
- Air connection on the top of the cabinet - diameter 150 mm
- Incl. 2 trolleys made of stainless steel to storage PVC or stainless steel trays

### Technical Data:

Dimensions cabinet W/D/H:	1600 x 750 x 1990 mm
Dimensions trolley W/D/H:	2 trolleys - 715 x 535 x 1670 mm
Exhaust Air capacity:	250 m <sup>3</sup> /h
Material:	Stainless steel (Material No. 1.4301 - AISI 304)
Doors:	2 sliding doors made of security glass
Exhaust duct diameter:	2 x 150 mm
Type:	NPS-1600-FM
